eK Power 6 Mounting Template

---

## eK Power 6 Mounting Instructions

### Tools needed :

- 4x mounting screws
- Screw driver

### Instructions :

1. Print out the mounting template at 100 % size.
2. Tape the mounting template to the desired mounting surface.
3. Align and screw the 4 screws in their respective positions (⊕), leaving approximately 0.5 cm (1/5 inch) between the head of the screw and the mounting surface.
4. Mount the eK Power 6 using the mounting holes (⊕) on the back of the eK Power 6.
5. Latch the eK Power 6 in place by sliding it in the direction of the power button.
